Welder statistics

The total number of welders qualified for each process.

Process	Count
SMAW	139
GTAW	118
FCAW	81
GMAW	16

Test events ⌵

> 01/12/2017 to 01/13/2017 Add welder 👤

📍 Test Building, Chicago, IL 📞 303-546-5634

Add Welders to the system

The local adds welders to the system. This is possible by clicking the button that looks like a person with a plus next to it circled below:

Your welders

Name	BDS number
> CLINT VAN BOXTEL	

Once you click this button a pop up window will appear and three pieces of information are required, name, social security number and local. When choosing the local it will default to your local, however you can select any local or choose not associated.

There is also a check box to allow the welder to have a login to themselves to the website. This will allow them to check their qualifications on line and see up and coming test events so please encourage them to do this. They will need to provide you their email address to set this up.

Once a welder has been added the system will find the BDS number for the welder from the MOST system based on their social security number. This ensures the welder is correctly selected and duplicates in the system are not created.

Add a new welder ×

Add Welders to Test event

Once a test event is scheduled it will appear on the website for a local to start adding welders to. When you have logged in to the website you will see your test events, to add welders to a particular test event click the add welder button next to the test event

Test events

> 01/12/2017 to 01/13/2017	
📍 Test Building, Chicago, IL 📞 303-546-5634	

You will then see a pop up screen to add the welder. You can add a welder by typing in one of their SSN, BDS number or email address and clicking the lookup button. The database of welders will then be searched for a matching welder and their details entered. The final item to select is which tests

the welder is taking. In the example below CA-01 and CA-02 are offered, but in the case below the welder is only taking CA-01. Finally click 'Add & Close' to add the welder. If you wish to add another welder click 'Add and New' and you can straight away add another welder in the same way.

Add a welder to your event ✕

Lookup a welder using their BDS number, SSN, or e-mail address.

Registered e-mail address

Welder name

Available tests

CA-01
 CA-02

Once welders have been added to the test event you can click on the test event to see the list of welders that will be attending and the tests they are taking. You can download a copy of this list by clicking the download button circled below

Test events ^

📍 Test Building, Chicago, IL 📞 303-546-5634

James Jones Jr (123)

Tests: CA-01

[View/search data](#)

All the welders in a local can be viewed and searched from the 'Your Welders' section. By clicking the arrow next to the welders name (circled below) the information for that welder will be expanded to show all their qualifications, contractors that have approved them and the expiry dates. Dates in green mean the welder is currently qualified, amber mean the qualification will expire soon and red mean this has expired.

	Name	BDS number
